- Problem Solving
- Time Management
- Adaptability
- Quick Learner
- Teamwork

About Me

Recent BSc Computer Science graduate with a strong foundation in programming, web development, and software development principles. Skilled in Java, Python, HTML, CSS, JavaScript, PHP, and React, with hands-on experience through academic and personal projects. Currently enhancing practical knowledge through Full Stack Development training. Passionate about learning new technologies, solving real-world problems, and building efficient software solutions. Seeking an opportunity to contribute, grow, and develop as a Software Developer.

TECHNICAL SKILLS

Web Development:

HTML, CSS, JavaScript, PHP (Basic to Intermediate)

Programming Languages:

C, C++, Java, Python, TypeScript, React, Snowflake

Other Knowledge:

Basic Artificial Intelligence concepts
Operating System (Processes, Memory Management, Scheduling, File Systems)
Basic DBMS

Tools:

VS Code, XAMPP, Git (Basic)

COURSE

Learning front-end, back-end, and database technologies to build complete web applications.

PROJECTS

Price Comparer (Academic Project)

<https://github.com/aryanambikar753-sys/price-compare>

- Developed a web application to compare product prices across platforms
- Helps users find the best deals efficiently

Student Management System

<https://github.com/aryanambikar753-sys/student-management>

Developed a console-based application to manage student records efficiently using Java and Object-Oriented Programming concepts. The system enables users to add, view, update, search, and delete student information through a menu-driven interface.

- Technologies: Java, OOP, Collections Framework, ArrayList

OTHER INFORMATION

- Strong interest in learning new technologies
- Dedicated and hardworking
- Ready to take on new challenges
